#### **Course Outline & Pacing Guide**

This schedule is a recommended pacing chart for the course. It shows the sections, tasks, assignments, and points possible. Each section is designed to be completed in about one week's time for a 16 week course. However, if you have less time to complete the course, you may need to move through the sections more quickly. Your teacher may also have a set schedule he/she would prefer you to use. Check with your instructor if you have any questions.
