

FOR GRADES PreK-6

Imagine Language & Literacy[®]

A personalized, engaging digital solution that accelerates language and literacy skills for all

Personalized, adaptive, effective

20 years of combining language and literacy development for all students

Imagine Language & Literacy is the only personalized learning program that accelerates both language and literacy skills development side by side. **Direct, explicit, and systematic instruction** and practice ensure students learn critical skills in four language domains. **Personalized learning pathways adapt automatically to maximize engagement and progress**, accelerating to match a cognitive leap or adjusting when a student needs extra scaffolding and support.

The **20** anniversary edition includes: new content, characters, and redesigns of cherished activities that have engaged students for the past two decades.

Why language *and* literacy?

According to decades of science of reading research, skilled reading is the product of word recognition *and* language comprehension. Meaning if one area is weak, then reading comprehension is diminished. That's why it's critical to teach both literacy and language skills in tandem.

STUDIES SHOW:

Proven results

Early Literacy Success
Utah | Grades K-2

Students showed statistically significant gains in early literacy for three consecutive years

Adolescent Proficiency Growth
Texas | Grade 4

Students experienced significant improvements, as shown by the STAAR Reading assessment

Language Learner Success
Florida | Grades 1-5

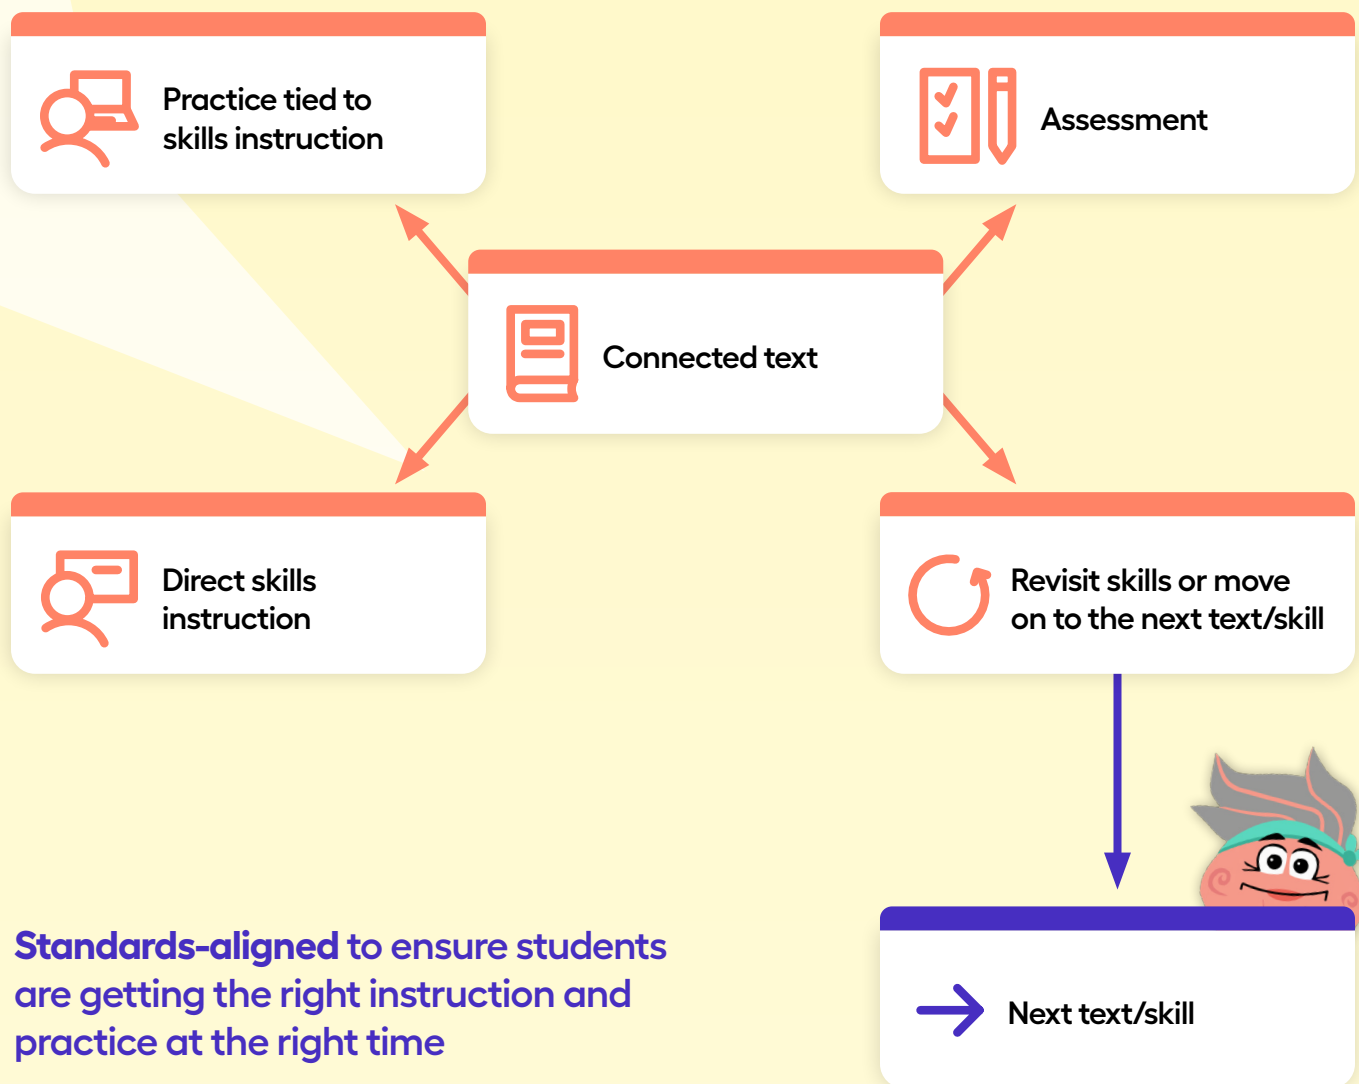

Learners showed statistically significant gains on the WIDA™ ACCESS for ELLs® Assessment

Accelerate, differentiate, and target support

An instructional model proven to accelerate learning

Our model for instruction and practice is unparalleled. Students receive direct, explicit, and systematic instruction of skills tied to a mentor text. This model is proven to improve students' academic proficiency in language and literacy skills.

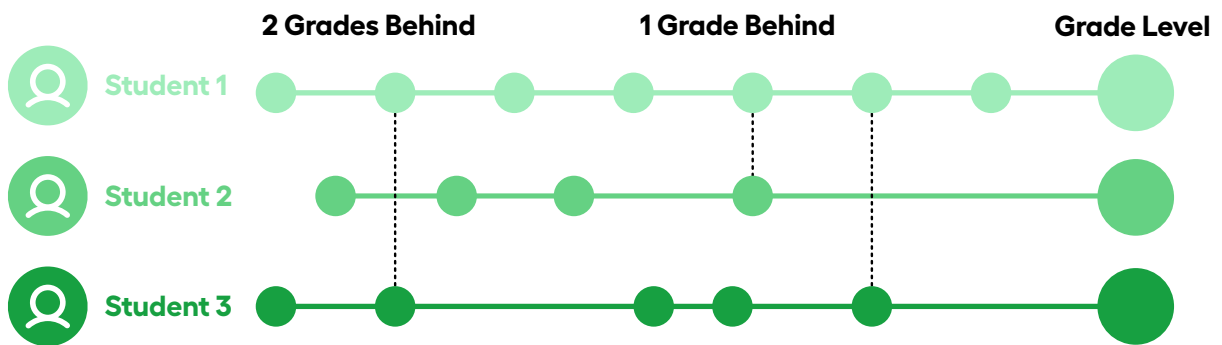

Personalized learning pathways adapt to all students' needs

Reach every learner in your classroom with adaptive technology that adjusts to the individual needs of all your students simultaneously.

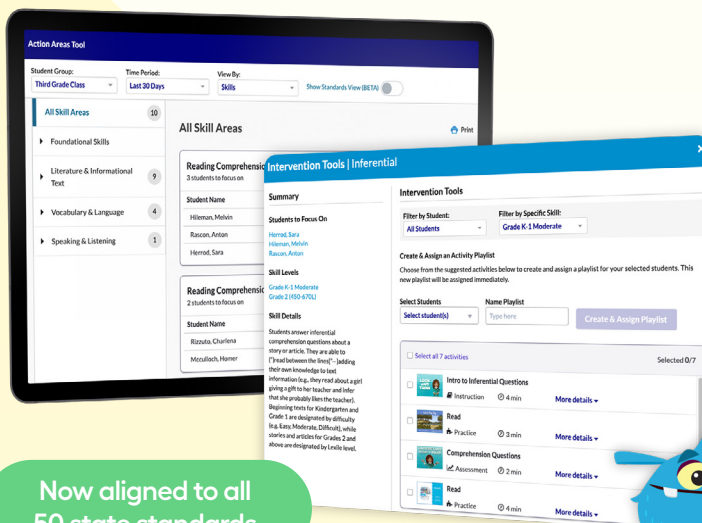

Our proprietary Smart Sequencer™ makes decisions dynamically about what students will do next

SMART SEQUENCER

Easily identify students needing extra support

Recognizing that students may need extra support with similar concepts, the **Action Areas Tool** automatically groups students based on skill or standard gaps. Teachers can assign supplemental activities to support student learning.

Students are automatically grouped.
Quickly see which students need more support with a specific skill or standard.

Assign with a click. Suggested additional content to address skill gaps can be accessed and assigned in one place.

Now aligned to all 50 state standards

Build an equitable learning environment for your diverse body of students

Students come to the classroom with a wide range of abilities. Imagine Language & Literacy helps all students succeed.

Multilingual Learners

- ✓ Human-voiced audio supports in 15 languages
- ✓ Specialized instruction based on student's language of strength
- ✓ Language instruction infused into daily activities

Students Needing Extra Support

- ✓ Self-paced learning for critical literacy skills
- ✓ Scaffolded supports with every lesson
- ✓ Direct, explicit, and systematic instruction

Advanced Students

- ✓ Personalized learning pathways accelerate progression
- ✓ Students work on only the skills they need

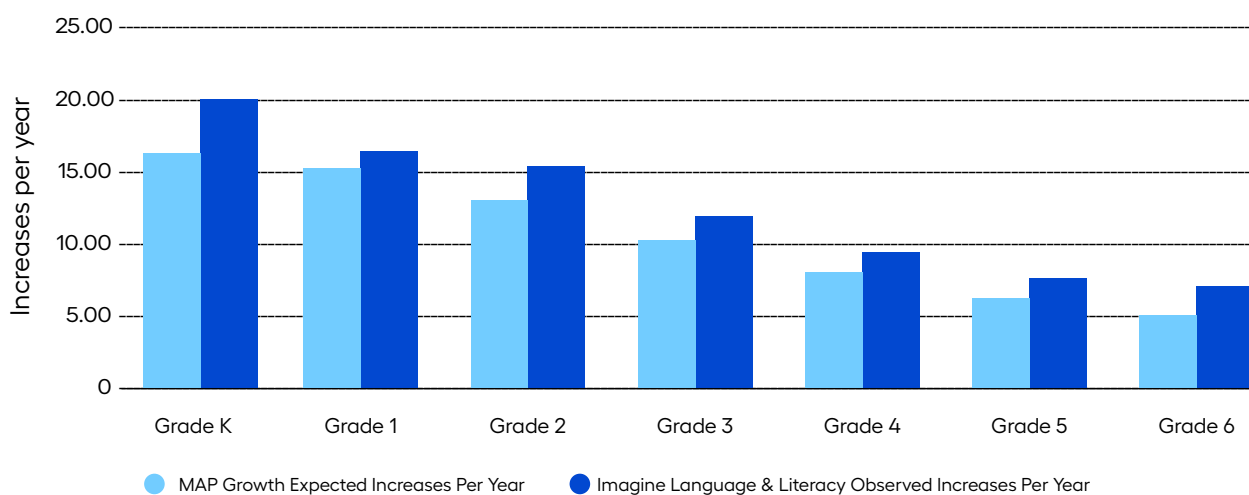

The impact: exceeding expectations nationwide

We continuously measure our impact on student success and school communities. Independent research and rigorous studies illuminate how this program improves student learning.

Average Expected and Observed Increases in MAP Growth Reading RIT Score by Grade for Students Who Passed At Least 20 Literacy Lessons

Note: Expected growth values retrieved from: Thum, Y. M., & Kuhfeld, M. (2020). NWEA 2020 MAP Growth Achievement Status and Growth Norms for Students and Schools. NWEA Research Report. Portland, OR: NWEA. Retrieved from: <https://teach.mapnwea.org/impl/MAPGrowthNormativeDataOverview.pdf>

- Students who used Imagine Language & Literacy increased NWEA® MAP™ Growth scores more than the growth expectation.

“I’ve been an educator for the last 13 years. This is the first time that I’m able to identify... an individualized program that absolutely attends to my students’ needs, that provides not only primary language support but a level of scaffolding that we wouldn’t be able to provide during regular instructional time.”

Cajon Valley Union School District, CA

Engage Students and Teachers

Encourage learning through game-based activities

Engagement is key in learning, but with social media and video games competing for attention, it's harder than ever. Our learning environment mimics the technology that engages them in their daily lives, keeping them excited to complete lessons.

Motivate engagement through play

Make learning fun with peer-modeling videos, songs, and game-based practice — all created on a video gaming platform.

Keep students motivated

Students earn booster bits for completing lessons. They can spend them on special games or to upgrade their avatars.

Teacher resources for fast and effective implementation

Spend more time teaching, not prepping! Use these convenient tools to get up and running quickly, get answers to all your questions, and connect with teachers across the country.

Professional Learning

Craft a PL package that fits your school or district's specific needs. Choose from our virtual webinars or onsite workshops, which can be purchased independently of packages.

	Foundational Webinar Package	Comprehensive Webinar Package	Foundational Onsite Package	Comprehensive Onsite Package
Modality	Virtual	Virtual	Onsite	Onsite
Participants	Up to 40	Up to 40	Up to 40	Up to 40
Sessions	4 sessions	8 sessions	2 onsite days (4 sessions)	4 onsite days (8 sessions)

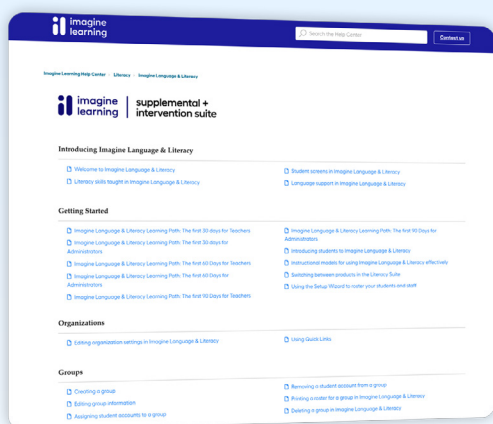

FOUR LEVELS OF SESSIONS AVAILABLE

Leading with Success for Administrators

Getting Started Workshops for Educators

Next Step Workshops for Educators

Targeted Support

Teachers' Lounge

A virtual space for teachers to connect, collaborate, and share classroom insights with colleagues across the country.

Embedded Help Center

CUMULATIVE PERFORMANCE REPORT

Administrators can create and save custom views of student data by grade, teacher, demographic, and more

USAGE REPORT

Keep track of how long students are working and predict end-of-year total usage

DASHBOARD

See a snapshot of where students are, all in one place

Do more with Imagine Language & Literacy

Add these literacy products to create the perfect program for your students.

Biliteracy pathway

A personalized, adaptive SLA program that accelerates Spanish language and literacy development for students in grades K-5.

Literacy for all

High-quality content built to provide a gradual-release instructional model that spans a wide range of literacy skills to increase comprehension in K-12.

A powerful combination

Support critical language *and* literacy skills with a research-based, adaptive program that eases teachers' workload and motivates students.
