

What's New for Back to School '23

The latest updates from Imagine Learning's
Instructional Services help all students succeed

Small Group Targeted Instruction

With **Small Group Targeted Instruction**, certified teachers lead targeted group practice of standards-aligned skills and concepts in math, ELA, science, and social studies for grades 3–12. Students can access sessions from school or home on a secure virtual platform.

Small Group Targeted Instruction teachers provide live instruction 2–5 times per week for 30 minutes per session.

COMMUNICATION FEATURES:

- ★ Live two-way audio and video
- ★ Chat box for instant messaging
- ★ Secure file and screen sharing

INSTRUCTIONAL TOOLS:

- ★ Free handwriting editor
- ★ Equation editor
- ★ Private workspace to facilitate individual feedback and support

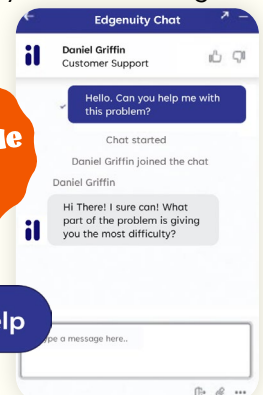

On-Demand Tutoring

On-Demand Tutoring connects students with expert tutors for one-to-one tutoring seven days a week through secure online chat tools and interactive whiteboards to visualize concepts.

When students are working on an activity and need individualized help, they can click on “Tutoring Help” which launches a chat box to connect with a tutor for the following subjects:

- ★ K–12 ELA, math, science, and social studies courses
- ★ 6–12 French and Spanish courses
- ★ National test preparation courses

With expert help a click away, students can get their questions answered so they can move on to more complex concepts with confidence.

Speech Teletherapy

Students can now access speech and language services from school or home! Thanks to Imagine Learning's **Speech Teletherapy** service, students can get access to nationally certified, fully licensed speech-language pathologists through a secure and confidential platform to help support their Individual Education Plans (IEPs).

Our therapists ensure:

- ★ Therapy remains compliant with local, state, and federal mandates
- ★ Transparency for stakeholders with a robust reporting system for therapy minutes and student progress

Intelli-Sync (Teacher Vacancy)

Imagine Learning's **Intelli-Sync** (Intelligent Synchronous) combines student-led learning with weekly whole-class live instruction delivered by a dedicated Imagine Learning virtual instructor who serves as a teacher of record.

This offering is designed to help schools address teacher vacancies in high school core subjects for an extended period of time (18 to 36 weeks) for up to 150 students per subject.

Students get the best of both worlds — the opportunity for engaging live instruction and ample time to complete their online coursework at their own pace.

This format gives learners face time with teachers to help build relationships and trust as well as reinforce tested standards.
