Grading Assistant in Imagine EdgeEX

Secure, convenient, customizable AI to empower human potential

Imagine EdgeEX's Grading Assistant tool is now available in beta. This new tool saves teachers valuable time and acts as an impactful feedback assistant by providing teachers with AI-suggested comments for students' short writing submissions in the four core subject areas.

The Imagine EdgeEX team built it to be:

✓ **Secure**
Your students' data is handled responsibly by a provider you know and trust. The tool also reports back to the educator if any concerning content is found.

✓ **Convenient**
Suggestions are aligned to the learning objective and cover multiple aspects of writing quality, providing highly targeted feedback directly within Imagine EdgeEX.

✓ **Customizable**
You can add, remove, or change content; the AI feedback is a starting point or suggestion, but you don't need to stop there.

This AI-powered feature will be expanded in future releases to provide a suggested score and other options.

Imagine Learning's AI Vision and Principles
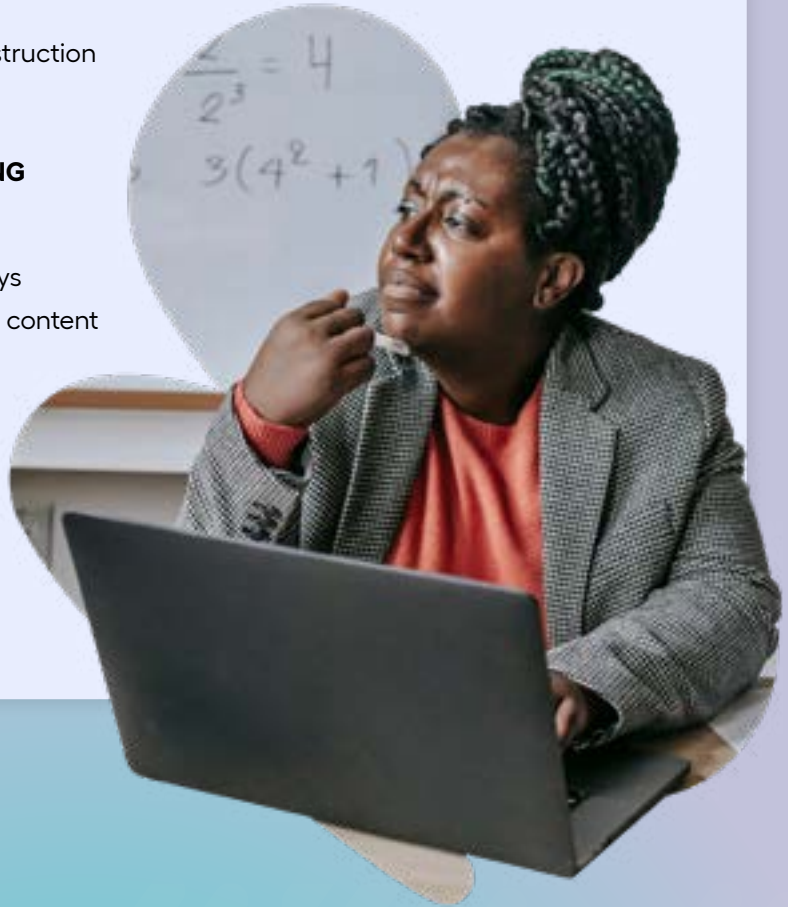

WE BELIEVE IN EMPOWERING EDUCATORS THROUGH AI BY:

✔ Creating intuitive tools for personalized instruction
✔ Reducing administrative burden

WE WANT TO BUILD AI-ENHANCED LEARNING EXPERIENCES THROUGH:

✔ Designing responsive educational pathways
✔ Fostering engagement through innovative content

WE ARE COMMITTED TO:

✔ Ethical AI development
✔ Privacy and fairness
✔ Equitable access
✔ Supporting educators and administrators
✔ Engaging families
