Help Students Own Their Summer Learning

Imagine Edgenuity® and Imagine EdgeEX can support students as they get back on track to graduate or work to get ahead

Credit Recovery, Acceleration, Enrichment – Say YES to it All

With dynamic credit recovery courses that keep students on the path to graduation and initial credit courses and electives that let students take the courses they couldn't fit in their regular schedule, Imagine Edgenuity and Imagine EdgeEX offer students both what they need and want this summer. Plus, their flexibility and personalization give middle and high school students the independence they crave, motivating them toward their goals.

Yes!

Personalized Learning Paths

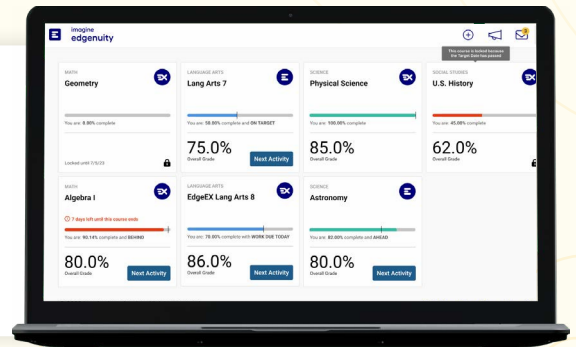

Tailored learning experiences adapt to each student's unique needs and learning pace.

Lesson-level pretests ensure that students engage with material that is relevant to their current level of understanding (not what they've already learned), allowing them to build confidence and take charge of their learning journey.

Self-Paced Learning

Students have the flexibility to progress through the courses at their own pace.

A personalized pacing calendar empowers students to take control of their learning schedule, allowing them to spend more time on challenging topics and move quickly through material they already understand, reinforcing a sense of responsibility and self-management.

Interactive and Engaging Content

Interactive content, including videos, quizzes, and engaging multimedia, keeps students engaged in their learning process. This interactive approach not only makes learning more enjoyable but also encourages students to take an active role in their education, fostering a deeper connection with the material.

YES

Real-Time Feedback and Assessments

Immediate feedback on quizzes and assessments helps students understand their progress in real time. This immediate insight into their strengths and areas for improvement allows them to take proactive steps in their learning process, enhancing their ability to self-assess and adjust their study strategies accordingly.

Flexible Implementation to Fit Your Needs

Credit recovery, initial credit, a combination of the two? In-person, hybrid, fully remote? Whatever options you're choosing this summer, we can help you design a program that works for you and your students.

PICK YOUR COURSES

- 📍 **Credit Recovery Lab**
 - Offer credit recovery courses to get students back on track to graduate.
- 📍 **Complement Core Instruction**
 - Offer initial credit courses to allow students to get ahead this summer.
- 📍 **Expand Course Offerings**
 - Let students choose from 400+ courses — electives, test prep, and more.

CHOOSE YOUR SETTING

- 📍 **Instruction at School**
 - Have teachers from your school or district teach the courses on-site or at a central district location.
- 📍 **Instruction at School + Home**
 - Let students divide online learning between school and home.
- 📍 **Instruction at Home**
 - Let students set the schedule and learn from home — you can use our certified teachers of record if needed.

Maintain momentum this summer with credit recovery
