

the summer of **yes!**

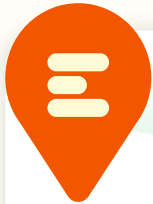

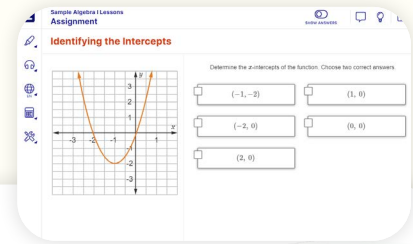

Summer Roadmap

Design a customized summer program with staffing, credit recovery, STEM camps, tutoring, and supplemental solutions

Your Roadmap to Summer Success

Say “yes” to opportunities — from credit recovery to enrichment, Imagine Learning can help you give your students what they need (and want) this summer. Follow the roadmap to find solutions that fit your students’ needs.

6-12 SUMMER SCHOOL

Dynamic, customizable credit recovery courses to keep students on track to graduate

Imagine Edgenuity® is a rigorous, research-based curriculum for grades 6–12 with an extensive suite of customizable, digital-first courses, including:

- Credit recovery courses that focus on the material students need, not what they’ve already learned
- Initial credit courses that students can work through at their own pace to get ahead — or take that elective that otherwise couldn’t fit into their schedule
- Test prep courses that help students feel prepared for ACT®, SAT®, and more

NEW! Imagine EdgeEX™ offers summer-friendly core credit recovery for grades 9–12. Its actionable data and easy-to-use tools empower educators and provide districts with more visibility and flexibility.

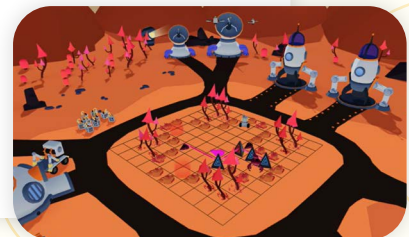

K-5 SUMMER ENRICHMENT

Math, coding, literacy, and beyond — customize a program to inspire your K–5 learners

Mix and match engaging, personalized solutions from Imagine Learning’s supplemental and intervention suite to keep your elementary students excited about learning this summer.

- **Imagine Robotify® + Imagine Science Corner™**: a STEM camp to inspire the next generation of mathematicians, chemists, and computer scientists
- **Imagine Math®**: designated summer pathways that prepare students for next year’s math skills
- **Imagine Math Facts®**: award-winning, gamified math facts fluency practice to get students ready for pre-algebra
- **Imagine Language & Literacy®**: personalized, science of reading-backed instruction in all four language domains to accelerate reading and English language skill development

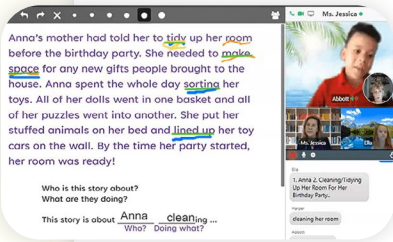

SUMMER STAFFING

K–12 certified teachers, special education services, and flexible tutoring and intervention options to expand summer offerings

Imagine School Services helps schools meet district-level goals and expand programs with:

- Highly qualified, certified teachers who prioritize student success
- Data-driven small group intervention
- Easy-to-access, point-of-need tutoring 7 days a week (even in summer!)
- SPED-certified educators who provide SPED instruction and SPED & ELL resource support
- COPPA-compliant and secure speech-language teletherapy

READING AND MATH INTERVENTION

Age-appropriate, adaptive K–12 intervention to turn gaps into growth this summer

Imagine MyPath® prioritizes foundational skills in an engaging, age-appropriate learning environment to:

- Optimize student motivation with content that is relevant to both their skill and maturity levels
- Ensure every student is algebra-ready by high school
- Develop strong, confident readers

MULTILINGUAL LEARNER SUPPORT

Rigorous, evidence-based language development to maintain English and Spanish learners' progress

Direct, explicit, and systematic instruction and practice in Imagine Language & Literacy® and Imagine Español® ensure students learn critical skills in all four language domains — in English and Spanish.

- Backed by the science of reading and proven to accelerate growth
- Culturally respectful, authentic instruction is designed to develop cultural competency
- Game-like learning environments adapt to students' strengths and gaps and keep them engaged

Say YES to Summer Learning

- 📍 Credit recovery
- 📍 Staffing solutions
- 📍 STEM camp
- 📍 Elementary enrichment
- 📍 Reading and math intervention
- 📍 Multilingual learner support
